## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 12-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 12 states "wherein the memory further: monitors and collects network traffic in real time; assigns a weight to the real time network traffic based on popularity; and creates a weighted list from the weighted real time network traffic; and...". In view of the specification the memory is not able to perform the functions of monitoring, collecting, assigning, and creating a weighted list from the real time network traffic.

The specification discloses the network adapter for monitoring and collecting real time connectivity information from the network (Page 6, lines 20-22). The information is then later stored in the memory (Page 7, lines 13-15). Examiner suggests wherein the network adapter further performs the functions of monitoring, collecting, assigning, and creating a weighted list from the real time network traffic.

***Response to Arguments***

Applicant's arguments, see page 6-12, filed 10/30/2006, with respect to the rejections of claims 1-14 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground of rejection is made in view of 35 USC 112.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
